Denali Training Fund Quarterly Progress Report

Funds for this project are provided by the USDOL and the Denali Commission and managed, in partnership, by the Alaska Department of Labor and Workforce Development.

Name of Organization: Alaska Operating Engineers/Employers Training Trust File 8-211	EN 786202 366-B
Name of Project: Heavy Equipment Operation	
Reporting Period: 4/1/2009-6/30/2009	
Contact Person: Ken Peltier, Administrator	
Contact Number: 907-561-5044 x103 Email Address: kpeltier@aoeett.org	
Expenditures to date: 30,107.07	
Certification: I certify that the information in this report is current, correct and true and in accordance with the terms and conditions of the agreement.	
Signed by: <i>Ken Peltier</i>	Dated: 07/09/2009

1. In a few sentences, please describe the scope of your project: *Training rural residents in the basics of Heavy Equipment Operation either at our Palmer Training Site or in villages to work on rural construction projects either funded by the Denali Commission or public works projects.*

2. Project Activities for this Reporting Period:

Describe the grant activities that happened during this report period. Include planning, advertisement and/or training performance that occurred this quarter? List any accomplishments achieved. (Attach advertisements if applicable)

We participated in the training of locals in Grayling for the Grayling Airport Project. This is a continuation of a project we were involved in last fall – where we helped train to do the site work for the airport project.

3. Scheduled Project Activities/Important Dates for next quarter:

Describe your planned activities and training for next few months. Please include important dates like graduation, site visits, travel, job fairs, etc.

We continue to do job fairs throughout the State. We will continue coordinating with the Denali Training Office to find out of projects that have been awarded in the villages to determine if we can assist in training locals for work on those projects.

4. a. How many are in your training program during this reporting period? 8

b. How many people have been trained and/or certified to date from this grant?

24

(Please complete form below.)

5. Please complete the list by putting the community to which each individual trained is from, the type of training and certification, the graduation date and who will employ them upon completion of training.

Community where trainee lives	Type of Training/ Service	Type of Certification to be earned/earned	Dates of training	Graduation Date	Employment commitment after training is complete
8 Individuals From Kivalina	Heavy Equip. Orient. – Articulated Trucks	Certificate of completion	7/14-7/18/2008	7/18/2008	Brice, Inc.
8 Individuals From Grayling	Clark Skidder & D-6 Mulcher	Certificate of completion	8/29-9/4/2008	9/4/2008	Cruz Construction
7 Individuals From Grayling	730 Ejector Compactor	Certificate of completion	6/9-6/13/2009	6/13/2009	Cruz Construction

Please copy and use another sheet if you need more spaces.

6. Please identify any problems or changes in your training project that will affect the budget, scope or timeline of the project. Is your training on schedule? What are the reasons for any difficulties or delays? Are you over budget/under budget? Have you had to change the initial scope?

The Grayling Training project was completed as scheduled and slightly under budget. We will work with the Denali Training Fund to identify upcoming projects. Because of the lack of projects currently available for training, we returned \$200,000 of the remaining funds to the Denali Training Fund.

Our experience is that the more time given for the interview of participants allows for a much more successful training.

Please provide an explanation to this change and your resolution to the variance.

7. How are you or will you be evaluating the individuals being trained to ensure competency, skill level and understanding? (Testing, assessment, etc)

All of our instructors are highly skilled in their individual fields of heavy equipment operation. Through weekly evaluation forms during the training they assess the participant's strengths and weaknesses, overall attitude, work habits, use of safety equipment, equipment and tool use, class performance, field/shop performance and skill level. Each individual that completes the training will receive a Certificate of Completion.

8. Please identify areas that we can assist you in the future.

We feel there needs to be more communication between the Denali Commission, the Village councils and the contractors as soon as a project bids to let them know that funding is available for training.
